## **DETAILED ACTION**

1. Claims 1-17 have been examined.

### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 03/31/2005 and 02/25/2005 were filed before the mailing date of the first Office action on the merits after a request for continued examination. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are being considered by the examiner.

3. The information disclosure statements filed 03/31/2005 and 02/25/2005 fail to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Fujitsu Ltd. (Yamamoto), Japanese Patent Application Publication No. 09-146843 A.

Yamamoto describes file processing units comprising:  
signature information producing and storage (see abstract; an access right based on the domain name); and  
a folder determining unit (see abstract; an access right confirmation means processing information from a tile storing files).
